Safe space statement

We aim to create an environment where everybody feels safe and secure to come as they are, and comfortably express themselves. We recognise however that safety is subjective and that only you can decide if a space feels safe and right for you. We invite you to tell us what you need to bring your best self.

With your help we can cultivate a positive space that:

- Treats everybody with respect
- Is supportive and accommodative
- Challenges ideas, not individuals
- Invites open discussion and questions
